

AMENDMENTS TO THE SPECIFICATION

Please amend the specification in the manner indicated below.

[0027] The dispenser such as 1 may be provided with a container such as 2 in any shape for example, spherical or cuboidal. The container would have a first aperture ~~19(not-shown)~~ therein and a first closure means ~~20(not-shown)~~ for sealingly closing the first aperture, said first closure means being openable to enable the contents of the container to be dispensed therefrom in use. Such a description encompasses most types of dispenser in various shapes.
